#### 1 Introduction

The BitShares 2.0 blockchain has been collecting fees for various operations since its inception on October 13, 2015. There are 45 types of operations available on the blockchain including account operations, asset operations, transfers operations, market operations, etc.

This document reports on the various fees that have been collected on the blockchain from the blockchain's inception through April 2017. Note that these collected fees are subsequently distributed to different stakeholders during maintenance intervals. Furthermore, these fees are distributed according to dynamic parameters that are specified by stakeholders, committee members, asset issuers, and the type of account that is paying for the operational fee. To reiterate, the fees reported in this document are merely the fees collected by the blockchain network and which are later distributed to various accounts. These fees are a superset of the fees that are ultimately distributed to the blockchain's reserve pool. In addition, this document does not report on the volume of activities on the blockchain; rather it is focused on the fees collected as a result of the activities. Finally, this document does not report on the subsequent distribution of the collected fees to entities such as the network, witnesses, worker proposals, asset issuers, referrers, nor lifetime member accounts.

Every operation that occurs on the network has an associated fee that may be paid for with any asset that is available on the network. The quantities that are reported in this document are all reported in terms of the asset units that were specified for fee payment (e.g. BTS, bitGold, etc.) and are not expressed in terms of any common asset unit.

#### 2 Summary

The BitShares network collected fees in 399 assets from October 2015 through April 2017. The total fees collected in the core asset, BTS, were 50,074,342 BTS. The monthly fees paid in BTS are plotted in Fig. 1.

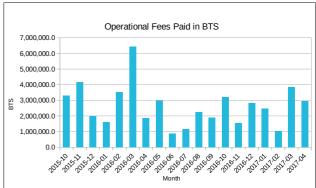

Figure 1: Fees paid for operations with BTS on a monthly basis since the blockchain inception. This plot does not include fees paid with any other asset.

The distribution of operations contributing towards those BTS fees are shown in Table 1. The top three sources of generated fees are asset creation, account upgrades (e.g. from standard membership to lifetime membership), and account creation.

Table 1. The distribution of collected BTS fees across the leading types of operations from 2015-10 through 2017-04 (rounded to the nearest integer)

Operation	Total (BTS)
Asset Create	49%
Account Upgrades	25%
Account Create	17%
Limit Order Create	3%
Transfer Operation	2%
Asset Publish Feed	1%
Witness Create	1%
Vesting Balance Withdrawal	1%

The monthly quantity of transaction and operations are plotted in Fig. 2.

<sup>1</sup> However, it has been observed that most fees are paid with the blockchain's core asset, BTS.

Figure 2: Quantity of transactions and operations on a monthly basis since the blockchain inception.

The various values that were observed on the BitShares blockchain from October 2017 through April 2017 are reported in the Appendices. Appendix A lists the fees for every operation as a percentage of the total fees collected in each asset. This appendix can be helpful for quickly identifying the distribution of fees across operation types. Appendix B lists the nominal fees collected for every operation type. This appendix contains the detailed fees from which the percentage values in Appendix A are determined. Appendix C lists the quantities of transactions and operations.

#### 3 Acknowledgments

The author is grateful to xeroc, thone, and jonnybitcoin for various discussions regarding the presentation of data, the quantity of operations, the fees related to market orders, and fee pools. Any possible errors in this document are those of the author alone.

#### **Appendix A: Fees Collected in Percentage Terms**

This appendix reports on the same fees presented in percentage terms of the total fees collected for an asset. This format can be helpful for inspecting the distribution of fees across all operation types.

#### **Fees Collected All-Time**

Table 2. Fees collected by the blockchain from 2015-10 through 2017-04 for the different operation types. The fees are presented in percentage terms of the total fees collected for an asset.
